

# Gold Pack Product Images

## Training manual

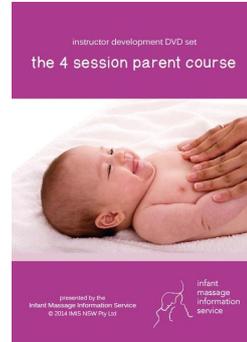

The IMIS training manual is full of evidence based theory, making it easy to work through the course content.

## Demonstration doll

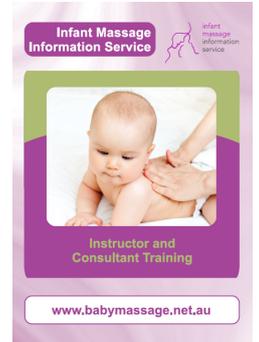

Perfect for demonstrating practical techniques, meeting flexibility, length, body & limb type requirements.

## DVD set (soft copy access available)

Easily learn practical techniques with over 3 hours of video footage with step-by-step instructions. See how massage routines are performed on demonstration dolls as well as real babies, plus 'sit-in' on a baby massage class for parents.

## Stroke demo DVD (soft copy access available)

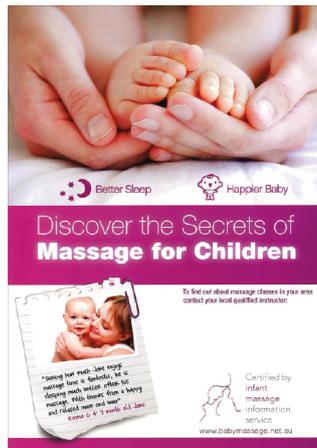

## Brochures

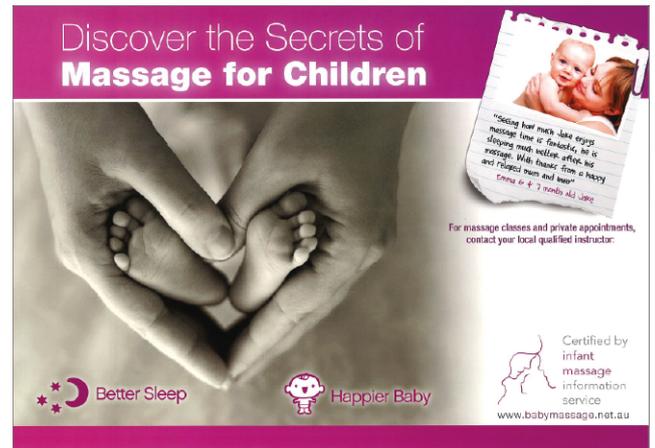

Ready-made full-colour professional brochures, created by marketing & design experts... just add your contact details.

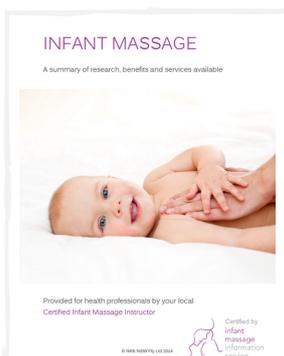

## Posters

Eye-catching posters ensure people know about the services you provide. Simply add you contact details. Grab the attention of parents and parents-to-be. Display anywhere there are parents, infants and children. With space to attach your business card, stamp or sticker.

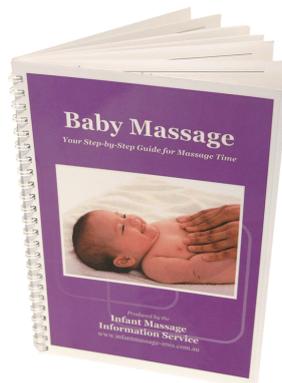

## Publication for Professionals

Promote your services, providing exclusive publications to professionals who can send you referrals.

## Parent manuals

Clear, step-by-step booklets make it easy for your baby massage clients to remember techniques.

## Organic oils

Organic, edible oils are safe to ingest when little ones put their hands & feet in their mouth during massage time. Suitable for delicate skin, our range of organic, cold pressed, sesame, almond and apricot oils are fragrance-free.
